## **DIGITAL ASSET INFORMATION**

Digital assets are a rapidly growing property category consisting of your online accounts and computer files. Digital assets can have both monetary value (domain names, websites) and sentimental value (digital photos, Facebook account). The best way to preserve, protect and distribute your digital asset legacy is to include your wishes in your estate plan. As part of our comprehensive estate planning we work to incorporate your digital assets into your Will or Trust.

Below is a list of some of the most popular digital assets to cover in estate plans. Please take a moment to check off particular digital assets you have. If you have more than 1 or 2 digital assets, we recommend using a digital asset inventory tool. You can also specifically state your last wishes for each of your digital assets.
